

## Who we are

*MetropolisNet* is a unique European network of different organisations developing and implementing local strategies for employment and social inclusion in a number of European cities.

*MetropolisNet* evolved from a transnational network created to support EU local employment initiatives, including Territorial Employment Pacts, in 1998. Since March 2009 *MetropolisNet* has been registered as an official EEIG (*European Economic Interest Group*).

*MetropolisNet* assists inter-city and inter-organisational collaboration in promoting the local, regional and transnational dimensions of EU policies on employment, social inclusion and local development. It links large European cities in the context of the EU 2020 strategy.
